That as the Ayacut or Total assessment of the lands under this channel is shown to be only Rs. 434 it would appear that the increase alluded to is merely expected to arise from the total extent of lands under it becoming capable of cultivation by its repair but after these results thinks it should be ascertained by reference to the actual Collns. during the 5 years adverted to whether the past expenditure has been profitable or otherwise & that the Bd. of Public Works should explain upon what grounds the present expectation of an increase is based & what security the Govt. possess that it will be realized	7th July	22d.
